

DUAL BEAM

PWL0081

Workshop Lamp/Floodlight

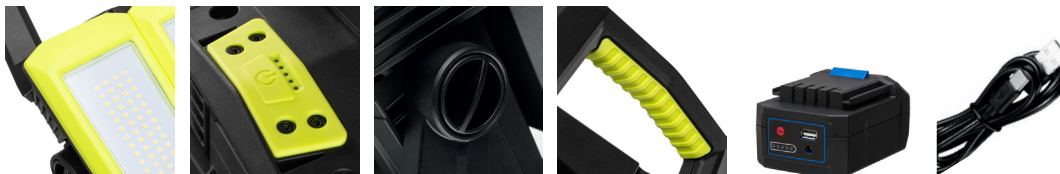

80 m

4500 LUMENS

120 pcs x SMD LEDs / 5700K / Li-Ion 14,8V 5200 mAh / 2 h

HIGH	4500 lm	2 h
MEDIUM	3000 lm	3 h 30 min
LOW	1500 lm	6 h
ECO	750 lm	12 h
	288 x 176 x 131 mm	
	2172 g (with battery)	
	1594 g (without battery)	
	3 h 30 min	

 IP54 Standard
  2m Shock Resistant
  Powerbank

The set includes:  battery,  USB cord,  charger

Optional accessories: PWL0081-MASZT (tripod); PWL0081-WALIZKA (case); PWL0081-UCHWYT (holder); PWL0081M (magnetic holder); B-PWL0081 (Li-Ion 14,8V 5200 mAh Rechargeable battery)

The DualBEAM workshop lamp, equipped with a powerbank function, is an ideal lighting solution for workshops, industrial halls and construction sites. Its design incorporates two independent movable heads, providing a wide 180-degree coverage, along with a device base that allows tilting up to 90 degrees. By incorporating 120 high-quality LED diodes, the floodlight emits an impressive maximum luminous flux of 4500 lumens. It is powered by a 5200 mAh Li-Ion battery that can be inserted into the housing. Conducted tests confirm the DualBEAM's water and dust resistance in the IP54 class. The extensive range of optional accessories significantly enhances user comfort and expands the functionality of the DualBEAM system. Among them, it is worth mentioning the 3-meter mast and the magnetic holder.
